# How many makers did you visit today?

## Tick off as many as you can!

- 1. The Invent Bus by FabBus: A London double-decker bus fitted out with computers, 3D food printers, vinyl laser cutters and more.
- 2. iOi Photobooth: Strike your most imaginative pose!
- 3. City Hanging Garden by Meanwhile Club: Create a portable patch of greenery.
- 4. 3D design and printing: Use Sketch Up and Tinker CAD to design city elements.
- 5. Godzilla film workshop by Creative Sparkworks: Re-enact Godzilla against a green screen using model cities.
- 6. Build and Race by Robert Workshop: Build a kit car and race others to see who's fastest.
- 7. Our Hut: Explore the concept of architecture in this design and building workshop.
- 8. Dance through the city by Movement Warriors: Look at buildings, transport and the environment and translate them into movement.
- 9. Let's Make a New Metropolis by Peeka: Collaborate to respond to structural challenges and then design and build a model of your designs.
- 10. Draw it, Sketch it, Model it! by Kidesign: Design a pavilion in 3D design software.
- 11. Design Club: Prototype solutions to design challenges - extra points for green, sustainable spaces!
- 12. Cardville: Build and design a collective Metropolis from card, making bridges, walkways, roofs, cityscapes and clock towers.
- 13. Under 5s area: Build a city and immerse yourself in colours and tactile materials. This is a free open space for little architects.
- 14. Trains & the City by London Transport Museum: Design a transportation system using Brio.
- 15. City Portraits by Dads and Design: Create a portrait using materials inspired by the metropolis.
- 16. Art & Architecture by Pilbrow Partners: Design and create a ceramic tile for the new Lambeth Community Centre walls.
- 17. VR Headsets: Purchase your own VR headset to take the experience home.
- 18. Anemone: The iOi's new interactive exhibit has 202 switches for you to flick!
- 19. Future 3D cities by iOi: Using the apps including Cospaces, Mini Metro and Skyscraper, to explore how buildings and transit systems function.
- 20. Water Walls by iOi: Tinker and play to create water systems.
- 21. Kinetic Sand by iOi: Explore the materials used to construct the metropolis.
