

## Cardboard Challenge programme

1. Explore virtual reality with cardboard headsets.
5. Make owls out of toilet roll tubes with DK Books.
2. Experience augmented reality with Zapper.
3. Carve pumpkins (12 - 2:30pm only) and make giant origami in our cardboard den.
4. Bring your own toilet roll tubes from home to add to our collaborative stacking installation.
6. Turn your under 5s into little monsters with a monster head mask.
7. Using only cardboard make robots, spaceships and anything sci-fi - there'll also be robot dance offs throughout the day.
8. Create your own stop frame animation with cardboard pieces.
9. Use cardboard to create lightboxes and use them to storytell through light play. Display the finished product in our Imagination Lab.
10. Design animal masks with OKIDO
11. Construct a marble run out of cardboard and see if we can make them interconnect throughout the day.
12. Create glow-in-the-dark creatues with LEDs and battery packs.
13. See a laser cutter in action and cut out a helicopter - can you make it fly?

We've entered the Aviva Community Fund to win support for Lab Learn, our innovative programme for schools. Help us spark children's imaginations by taking a few minutes to vote. Simply to go [bit.ly/ioivotenow](https://bit.ly/ioivotenow), register your email and then vote for the Institute of Imagination.
