Add images of your creation here.

Tell us about your creation:

How did you tackle this challenge?

Can you make suggestions as to how your creation can be improved?

What did you enjoy the most about this activity?

Name:

School:

	<b>Creative Intelligence</b>		<b>Critical Thinking</b>		<b>Collaborative Learning</b>	
Inquiring	Did you draw on any ideas from science, maths or elsewhere?		Did you try something different rather than follow what someone else has done?		Did you borrow or adapt from others?	
Imagining	Did you try new ideas or processes for your sculpture?		Did you try out and repeat ideas to see if they worked?		Did you listen to and build on the ideas of others?	
Doing	Did you explore the properties of materials and use your understanding to achieve your design goals?		Did you show persistence, not giving up when it was challenging?		Did you support others with their sculptures?	
Reflecting	Can you make suggestions as to how your sculpture can be improved?		Did you adjust your goals based on feedback and evidence?		Did you provide feedback on other people's sculptures?	

Use this rubric to reflect on the skills you exhibited during this activity. What are your strengths? Where could you develop more?
