

# My Big Idea: A children's showcase

Supported by The LEGO Group

Saturday 17 June 2023

Clapham Library 10am - 1pm and 2pm - 4.30pm

## What big idea would you create using technology to help your local community?

If you're based in Lambeth and you're 13 or under, we want to hear from you! Imagine that you are a problem solver and inventor! Your mission is to come up with an innovative idea that uses technology to help your local community.

Join us at the My Big Idea showcase and awards ceremony on Saturday 17 June at Clapham Library. You'll have the opportunity to share your idea, see what other young inventors have come up with, and participate in fun LEGO play activities. Plus, you'll receive an Imagination Box filled with creative activities to keep your imagination soaring even after the event!

### Need some help with your idea?

- Start by thinking about the issues you see in your community - what are some problems that people face or things that could be improved? Consider environmental issues, social issues, and everyday challenges.
- Once you have identified a problem, brainstorm ways that technology could help. Could you invent a robot that picks up litter? Create a VR app that helps people find recycling bins? Use coding skills to design a virtual reality game that teaches people about the importance of reducing plastic waste?
- Remember, the goal is to be creative and imaginative! Don't worry about whether your idea is "realistic" - this is a chance to let your imagination run wild. Think about how your idea could make a positive impact on your community and inspire others to get involved.
- Then, design or create a prototype to showcase, detailing your idea, how it might work and the benefits it will have for your community. You can create a presentation, draw a poster, or craft a prototype out of LEGO or recycled materials.
- Then, join us at the My Big Idea showcase and awards ceremony on Saturday 17 June at Clapham Library. You'll have the opportunity to share your idea, see what other young inventors have come up with, and participate in fun LEGO play activities. Plus, you'll receive an Imagination Box filled with creative activities to keep your imagination soaring even after the event!

### Resources

To help inspire your ideas, we're offering free "My Big Idea" resource packs that include a Zapbox mixed reality headset, which you can pick up from the following participating Lambeth libraries starting from Friday 12 May: Clapham, Streatham, West Norwood, South Lambeth, Brixton and Upper Norwood.

With the Zapbox, you can download the ZapWorks Studio app and access a range of project templates from the New Project menu. We understand that this technology may be new to some of you, but don't worry! We have provided free tutorials on the ZapWorks website and iOi@ home platform to help you get started.

To learn more about this fantastic opportunity, head over to [ioi.london/mybigidea](https://ioi.london/mybigidea) and let your imagination run wild!
