

Meeting Animals Resource

Biomimicry is an exciting way to inspire us to look at the natural world and find creative ways to solve problems. 'Bio' means life and 'mimicry' means to imitate or copy. It involves learning from nature to improve the design of places, products, processes and the way we do things.

Find an animal that you like and investigate the science behind it. Write its name and draw it in the space below.

How does the animal help?
