

Digital Education Content Coordinator (volunteer)

About the role

We are seeking a passionate and enthusiastic volunteer to join our team and support the development of digital educational content. We are especially excited to welcome candidates from underserved and underrepresented backgrounds. We can be very flexible, and this role could be an internship. We believe a diverse workforce is one to be celebrated. Everyone is empowered in our team to make the role their own and have their voice heard to enable us to provide children with a chance to build a better and fairer world tomorrow.

Our mission is to provide opportunities for students from diverse backgrounds, ensuring they have access to quality STEAM education that addresses their unique lived realities. By prioritising underserved and underrepresented young people, we are committed to breaking down barriers, empowering their voices, and ensuring they have equal access to transformative opportunities and core competencies.

As a Digital Education Content Volunteer, you will play a crucial role in creating and curating engaging and impactful resources for educators that empower children to reimagine their futures. This is an exciting opportunity to contribute to a dynamic organisation committed to nurturing creativity and innovation.

Responsibilities

- Collaborate with the education and learning team to brainstorm, develop, and refine digital educational content that aligns with our mission and values.
- Curate relevant educational materials and resources and build them into our ImagineED platform.
- Assist in the production of multimedia content, including videos, interactive activities, and educational materials, for online platforms and digital learning environments.

Qualifications

- Passion for creativity and social impact, with a genuine interest in empowering children from underserved communities.
- Excellent communication and collaboration skills, with the ability to work effectively in a team environment.
- Basic knowledge of digital content creation tools and platforms (e.g., video editing software, graphic design tools, learning management systems) is desirable but not essential.

Benefits:

At iOi, we are committed to providing an environment that encourages growth and empowers our employees. Working alongside passionate professionals who share your vision, you will have remarkable opportunities to create meaningful and impactful work. Join us in making a difference in the lives of children from low-income households through our digital content.

- Opportunity to gain hands-on experience in content creation and educational technology.
- Access to training and professional development opportunities to enhance skills and knowledge.
- Networking opportunities with professionals in the education and non-profit sectors.
- The satisfaction of making a meaningful difference in the lives of children and communities.

If you are passionate about education, creativity and STEAM (Science, Technology, Engineering, Arts, and Mathematics) and are excited to contribute to our mission, we would love to hear from you!
